

Vaccine Dangers & Risks: Learn What CDC Documents and Science Really Reveal

Do you believe that the most important way to protect your health -- and your children's, parents' and other loved ones' health -- is through comprehensive knowledge? Are you a medical practitioner who seeks to understand and provide your patients the essential insights to help them live longer and better?

Then one word can describe this new video, "Vaccines: What CDC Documents and Science Reveal," by world-renowned vaccine expert Dr. Sherri Tenpenny: essential.

To put it simply, if you are dedicated to protecting and enhancing your life, your family's, or your patients', but you have not been exposed to the often startling but thoroughly documented information in this video, there is a dangerous gap in your knowledge. Whether you have explored the issue of the dangers of vaccines extensively or not at all, I more than recommend you watch this video -- I implore you to do so.

Vaccines ARE Linked to Disease and Chronic Illness

The pharmaceutical giants profit immensely from vaccines and so they pour immense effort into suppressing the information, and the government seems more than willing to oblige them, but it's time for you to know the truth: vaccines can do far more harm than good, and they can kill.

"Vaccines: What CDC Documents and Science Reveal" is the culmination of Dr. Sherri Tenpenny's intensive 3-year investigation into the real story behind vaccines. You will get the facts, in Dr. Tenpenny's always lively format, on all the crucial areas including:

- How vaccines can cause illnesses including autoimmune diseases, allergies, ear infections, and more
- The very real link between vaccines and developmental, learning and behavioral disorders in children
- How vaccines have never been proven safe
- The ingredients and contaminants in vaccines and why they're detrimental to your health
- How vaccine studies are seriously flawed

Again, this is not merely hearsay, not even educated guessing, but absolutely essential facts that you need to know. Dr. Tenpenny's quest has involved, among many other resources, a comprehensive review of documents from the Centers for Disease Control, the World Health Organization, and the world's most respected medical and scientific journals. This video, a result of her efforts, can really spare adults from further vaccine-induced injuries and spare children from a lifetime of mental, physical and immunological issues.

Crucial Vaccine Insight from the World's Leading Authority

Most of the 150,000 readers of my [free health newsletter](#) need no introduction to Dr. Sherri Tenpenny, as she has been a contributing editor on the vaccine issue for several years. For that matter, many people throughout North America have likely heard of her, too, as she has offered her unparalleled insight on vaccines on countless health programs.

Her articles, such as ["Expert" Believes Infants Can Tolerate 10,000 Vaccines](#) and [Smallpox Vaccines and Heart Disease, No "Coincidence"](#), gives an idea of the range of her expertise and important insight. With "Vaccines: What CDC Documents and Science Reveal," though, you will get all of the crucial information you need to protect you and your loved ones. What's more, you'll get it in a manner you can understand, and that's not "dry" but actually engaging to watch.

If you are a parent, a medical practitioner, or otherwise interested in how to exercise your freedom of choice to bypass vaccines, you should also consider "[The Dangers of Vaccines, and How You Can Legally Avoid Them](#)" cassette tape. While Dr. Tenpenny's new video will provide you with all the insight on how and why vaccines are dangerous, this tape -- providing the full teleconference I hosted with Dr. Tenpenny -- will provide detail on how you and your children can legally avoid "required" vaccinations, such as for school.

Those interested in both the video and tape should check out the special FREE Shipping offer below.

Order This Essential Vaccine Video Now

The "Vaccines: What CDC Documents and Science Reveal" is a must-see whether you are considering vaccination (for you, your children, parents, patients), have already been vaccinated, or seek scientific backing for choosing not to vaccinate. In fact, if you can only delve into one form of media on the vaccine issue, I assure you this should be it.

The 2-hour video, presented in a lively manner by vaccine expert Dr. Sherri Tenpenny, is now only \$24.95, plus shipping & handling.
